

# FORESTAL PARK TENERIFE

## ORGANISATION OF THE EVENT

First of all, we recommend that you sit down with your little one to draw up the **guest list**. We have created this editable file for you to do it digitally, but if you end up printing it, remember to recycle it properly.

Once you have completed the guest list, send the personalised **invitations** to each friend. They can also be sent digitally or you can print them and deliver them by hand.

When you receive confirmation of attendance, organise **transport** for those attending. Carpooling reduces air pollution and helps the planet.

Think about which **adults are going to accompany the children at height**, as the accompanying adults must comply with the ratios set out in the birthday catalogue and in the park regulations.

Once you have everything organised, create a **mailing list or a group in one of the instant messaging applications** and keep the attendees informed with all the useful information so that they can enjoy a unique event. Remember that there is no mobile coverage in our park, so you will be disconnected once you get to the forest.
